What is VSTBalance?

VSTBalance is an automated fall-risk assessment tool that utilizes Artificial Intelligence (AI) with machine vision to objectively identify deficits in balance, gait, and function – The three main indicators of fall risk.

Benefits of VSTBalance:

- Reduces Post-Acute Care Falls by **73%**
- Improved Mobility for AL / IL Residents by **85%**
- Quick, automated standardized testing, which creates more effective Care Plans
- Engaging biofeedback activities that seniors love and assist in reducing falls and improving mobility
